Part B Instructions - 5 minutes max

Circle any terms you are unfamiliar with or not sure how they relate to Topic 1.

Discuss with your team and/or other teams and see if you can figure it out.

Part C Instructions

Word association round.

Flip your paper.

For each word, create a word map with associated words.

1. Prototypes

2. Direct changeover

3. Change management

4. Gathering requirements from end users.

5. System testing

6. Data migration

Part D

SWAP YOUR SHEET WITH ANOTHER TEAM.

Using another colored writing tool, feel free to add your own ideas.

Don't mess around - stay on task!

Part E - 10 minutes max

1. Ask Chat GPT to generate an IBDP Exam Question based on IBDP Computer Science Topic 1 and using the command term “outline”. Ask for the answer, too! If you understand the question and answer clearly, then you have found an appropriate question! Keep searching until you find an appropriate question/answer, 1 per team - NEGOTIATE!
2. Write your chosen QUESTION ONLY down on your paper.
3. Close your laptops!
4. Give your paper to another team. Attempt to answer the question. As an “outline” question, try to achieve 2 to 3 marks.
5. Return the paper to the owners. They will grade it and give you feedback.
